

Customer Training

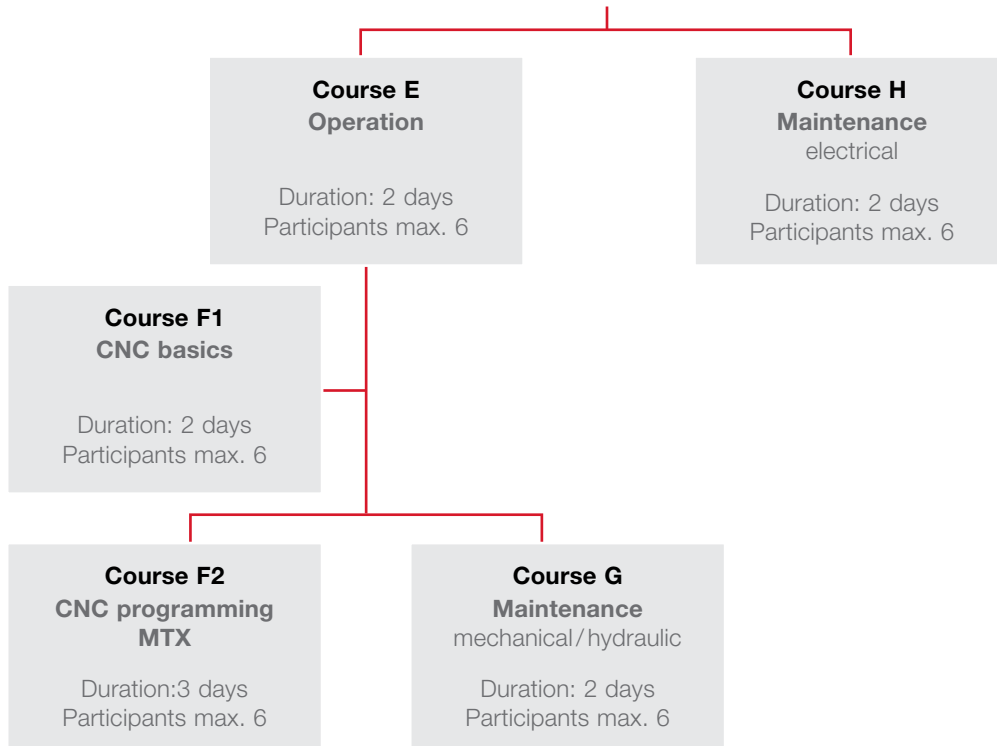

Our motto «Only quality can produce quality» links our success directly to the success of our customers.

That is why regular customer training in the areas of machine operation, mechanical and electrical maintenance as well as programming is very important to us. We also offer our customers individual customer training according to their requirement profile. This allows us to ensure that our customers have a perfect know-how with regard to the machines.

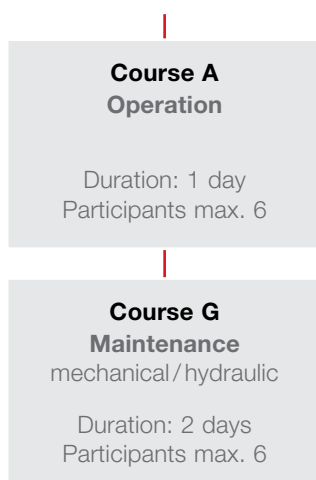

Your benefits

- ▶ More knowledge and know-how within your company
- ▶ Your competitiveness increases
- ▶ You gain skilled personnel
- ▶ The achievement of corporate goals is accelerated
- ▶ Increase in productivity

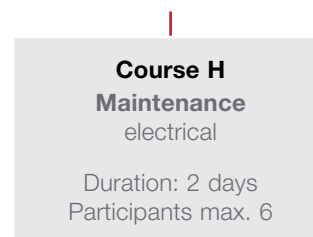

Rotary transfer machines with Bosch IndraMotion MTX controller

Rotary transfer machines with Siemens controller without CNC

Rotary transfer machines with Siemens controller with CNC
