

Inspection Foresight Pays

Your requirement

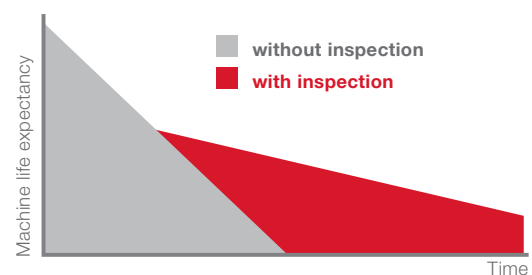

- ▶ You need guaranteed machine running times and production reliability
- ▶ Maintenance costs should be low
- ▶ Documentation is required for certification and quality assurance

Our solution

- ▶ Annual preventative maintenance for your machine instead of high follow-up costs

Your benefits

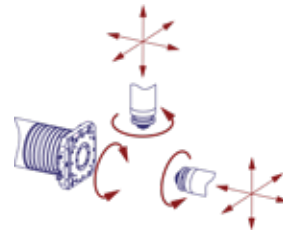

- ▶ Precise cost and time management for preventative maintenance
- ▶ Reduction of unpredictable machine downtime risks
- ▶ Avoiding repair costs by detecting damage
- ▶ Early detection and consultation regarding optimisation possibilities
- ▶ Clarity about the current machine status
- ▶ Documentation for a successful certification

RT 100-12

Precise, productive, reliable

- ▶ Machining of stationary and rotating workpieces
- ▶ Easily reconfigurable machine system
- ▶ Simultaneous machining from 5 sides
- ▶ Cycle time-parallel loading and unloading of workpieces
- ▶ Bosch MTX controller with up to 99 axes
- ▶ Rotary indexing table with endless cycling thanks to slip ring technology
- ▶ Compensation of the most precise dimensions thanks to inprocess measurement

100% CNC

Everything under control

Efficient spindle drives

Ready for the future

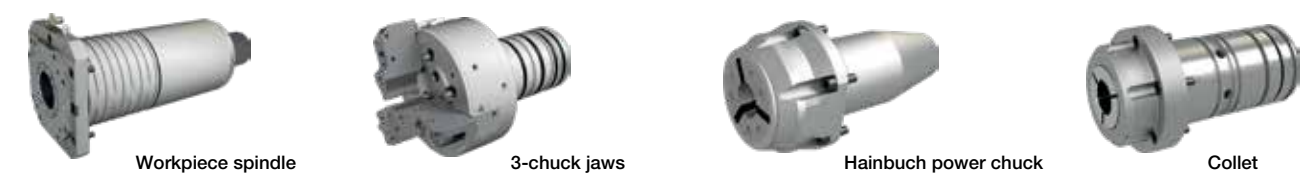

Minimal setup times

RT modular design / tool modules

Workpiece spindle / clamping options
